

"Your Source For Quality Products"

Now in our 12th year of business, Exhaust Direct continues to expand on our already extensive line of direct fit pipes, mufflers, & stainless steel tips.

Our extensive line of exhaust parts & accessories, exceptional delivery program, & knowledgeable staff has made EXD the choice of warehouse distributors, & muffler shops throughout North America.

In order to keep exceeding your expectations of superior quality & customer service, EXD has implemented Lean Methodology throughout our entire business, and is currently in the final stages of ISO certification. In addition, we are also implementing a new software program(ERP) that will allow our customers to order & view our inventory online.

Pontiac G6 Direct Fit Resonator ('05-'07)

Ford Taurus Converter Repair Pipe ('00-'07)
